Dear Sir

Progress of Development Application for a Poultry Farm at 136 Top Forestry Rd Ridgewood.

There appears to be little progress with the above development application.

At our meeting in February, it was agreed that a period of 3 months was sufficient to progress the issues that were unresolved relating to the application. This 3 month period lapsed some time ago, with recent updates to this time frame also lapsing.

Please be advised that if no further response is received by 31 July 2014, officers will report the application to the August round of Council meetings for a decision based on the application material currently before Council.

Should you wish to discuss this matter further, please contact me on the above number.

Yours faithfully,

Kerri Coyle
Planning & Environment, Manager
